Research as a Transferable Skill
Interactive online program to enhance your employability

Boost your **academic performance** and **future employability** by developing critical research skills as part of your undergraduate experience.

The courses focus on useful skills that you should master if you are planning to pursue a career where an element of research is necessary.

This online program contains animations and comic strips, real case study examples, and video interviews with real students.
Sign up for Research as a Transferable Skill at your institution today:
