

# This is Epigeum

Developed through a unique process of global collaboration, Epigeum's interactive, online courses make consistent, cost-effective training achievable for a growing number of universities and colleges around the world.

Through our collaborative development process, innovative approach to learning design, and outstanding client support, we have built an international reputation as a provider of exceptional online learning.

## Our Story

**2005**

United in a passion for collaboration in online learning and cutting-edge technology, Epigeum was founded at Imperial College London

**2015**

Epigeum was acquired by Oxford University Press, to further the University of Oxford's objective of excellence in research, scholarship, and education by publishing worldwide

**Today**

Epigeum collaborates with leading experts from across the globe to develop courses across four core areas of training: Research, Teaching and Development, Studying, and Support and Wellbeing.
