

# Avoiding Plagiarism

## Support your students in avoiding plagiarism

WITH  
NEW  
CONTENT

The second edition of *Avoiding Plagiarism* was designed to help students understand the different types of plagiarism and what steps they can take to ensure that they don't leave themselves open to accusations of plagiarism. The updated version aims to bring the content at par with the current academic climate, streamline the narrative where required, and upgrade the format in ways that would improve the course.

The revised structure of the course has four units as below:

### UNIT 1: What is Plagiarism?

- Introduction
- Student perspectives on plagiarism
- Tutor perspectives on plagiarism
- Plagiarism: Key terms
- Practice scenario 1

## UNIT 2: Plagiarism: In Context

- Plagiarism in the news (new content)
- Types of plagiarism
- Unintentional plagiarism
- Paraphrasing
- How is plagiarism detected?
- Practice scenario 2
