

Build a culture of Academic Integrity

Provide targeted training to facilitate a consistent and unified approach to academic integrity in your institution

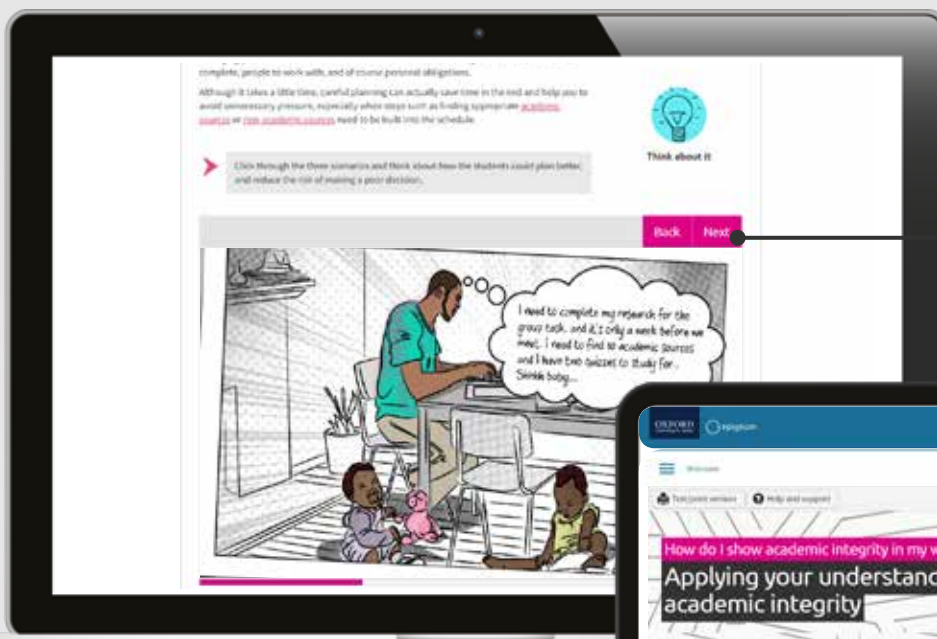

- Instil positive values, skills and behaviours via clear explanations and interactive activities – providing strategies for evidencing academic integrity in all aspects of work
- Explore best practice and its real-life applications via video interviews with students and staff, plenty of practical advice, and a rich variety of complex, realistic scenarios
- Encourage reflection on common issues and dilemmas, as well as consideration of different experiences, using engaging animations, comic strips and polls

Step-by-step support for students

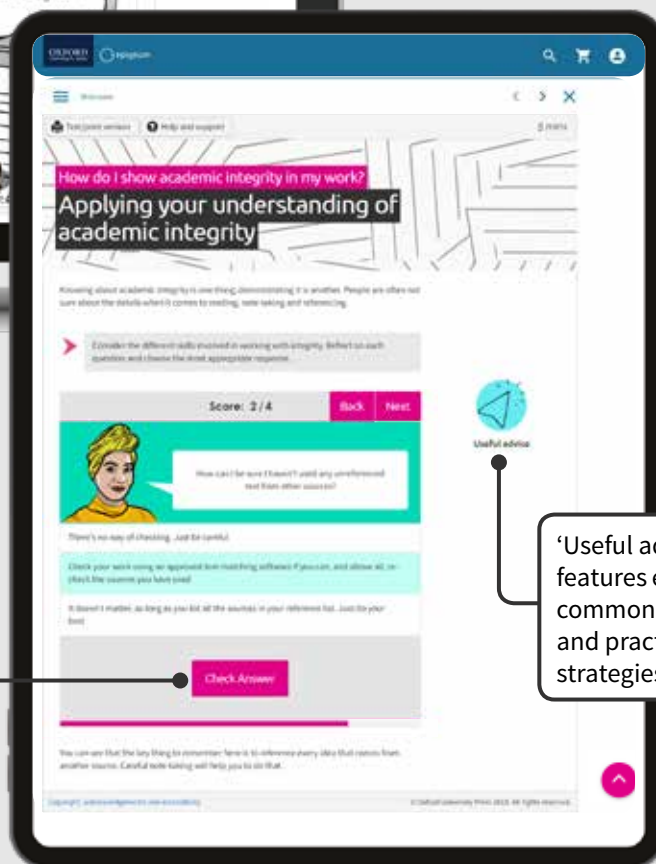

Provide a well-rounded guide to studying with integrity – emphasising the positive values, skills and behaviours necessary throughout university and beyond.

Modules

- What is academic integrity?
- How do I show academic integrity in my preparation?
- How do I show academic integrity in my work?
- How can I feel more confident about academic integrity?
- How do I deal with more complex situations?

Realistic scenarios prompt reflection and discussion, bringing course content to life

'Useful advice' features explore common issues and practical strategies

Summative activities provide opportunities to evaluate and evidence understanding

Comprehensive support for staff

Drive the development of a robust culture of academic integrity, exploring effective strategies for supporting students in ways that have a lasting impact.

Modules

- What is academic integrity?
- Promoting a culture of academic integrity
- Identifying and responding to breaches of academic integrity
- Teaching, learning and assessment: implications for academic integrity
- Assessment design choices for academic integrity

Although it is a powerful way to encourage a culture of academic integrity, having conversations about possible academic integrity breaches can be challenging. Consider:

- How do you feel about having challenging conversations?
- What makes such conversations challenging?
- What steps do you take from having challenging conversations, and what do you need to know in order to initiate them?

Click on the different parts of the diagram to learn more about dealing with challenging situations. Click the 'Home' button to return to the centre.

There are many different ways we can respond when we notice a breach of academic integrity - some are helpful and others are not. A good way to figure out how to respond is to think about the appropriate outcome in the context of your university's policy, and then think through how you might best achieve that outcome.

Click on each of the scenarios, what do you think is the best course of action? Choose one of the responses provided, and then read our feedback.

Think about it

'Think about it' features encourage reflection on learners' own unique contexts

Clear, concise explanations of key concepts build understanding

Useful advice

Interactive activities support targeted knowledge and skills acquisition

A proactive approach is vital to promoting a culture of academic integrity. Given what you now know about exemplary academic integrity policies and practices, what are some of the things you can do in your role to help students and colleagues access and understand your institution's approach to academic integrity?

Categorise the policies and procedures by whether you have influence over them by dragging and dropping them into the appropriate column.

Things I have some influence over	Things I have no influence over
Streamlined reporting system	Mission statement
Clear policy	Marketing and advertising
Definition of terms	

Becoming aware of the ways that each of us can have input into institutional academic integrity documents and practices is vital towards taking responsibility for encouraging a culture of integrity.

Useful advice

“Epigeum’s *Academic Integrity* online course is designed to assist higher education institutions to embed internationally recognised best practice at every stage of a student’s candidature, and provide comparable training to both teaching and administrative staff. Utilising the expertise of researchers, educators and practitioners from around the world, the *Academic Integrity* online course will offer a more nuanced and complete package of interactive resources than has previously been available.”

Dr Tracey Bretag, Lead Advisor, *Academic Integrity*
